

CRMSE Colloquium

# Nate Brown

Professor of Mathematics  
Penn State University

*Inclusive Instructor Behaviors: A Research  
Mathematician's Transition to Educational-  
equity Research*

Friday, March 3, 2023  
12:00 noon to 1:00pm PST  
Zoom Only event (link below)

I'm a theoretical mathematician by training, but in 2016 a stunning paper convinced me to learn about education research. Specifically, (in)equity-in-education research. In this talk I'll discuss my journey, including a few of the many challenges, and describe the development of a measure of inclusive instructor behaviors in undergraduate math classes.
