

San Diego Mathematics  
 Project Presents:

# Young Children's Mathematics

Professional Learning for  
 Early Childhood Educators

Young children bring rich, intuitive understandings of mathematics with them into early childhood classrooms. This workshop series focuses on children ages 3-5 and is appropriate for teachers of preschool & transitional kindergarten. We will explore the power of young children's thinking and the ways instructional activities (such as *Counting Collections*) can elicit and build from children's natural brilliance.

### 3 Saturdays & 2 afterschool follow-up sessions:

- Aug. 24, Sept. 7, & Sept. 21 (9am-noon)
- Fall follow-up (5-7pm, date TBD)
- Spring follow-up (5-7pm, date TBD)

Cost: \$225/participant (includes book & parking)  
 Location: *Center for Research in Mathematics and Science Education, SDSU*  
 6475 Alvarado Road, San Diego, 92120
